FOREWORD BY THE MINISTER FOR THE ENVIRONMENT

The purpose of this book is to make available a convenient source of information in relation to the local elections which were held in June, 1979. The book contains the detailed results of the elections, including transfers of votes, for each county electoral area and each county borough electoral area. It contains, in addition, statistical tables in relation to these elections and to the elections for borough and urban district councils and boards of town commissioners. The information has been compiled from the public notices of the results of the elections published locally by returning officers and from supplementary information furnished by the local authorities. It is hoped that the book will be of use to political commentators and students of politics and local government as well as to public representatives at all levels.

Minister for the Environment
October, 1980.

INTRODUCTION

Local elections were held on 7th June, 1979 on the same day as direct elections to the Assembly of the European Communities. The local government electorate of 2,194,702 voted for representatives on 27 county councils, 4 county borough councils, 56 borough and urban district councils and 23 town commissions. A total of 3,265 candidates stood for election to 1,550 seats in 241 electoral areas. The election was contested in every local electoral area.

The Minister for the Environment made regulations on 11th April, 1979 to facilitate the simultaneous taking of the polls at the European Assembly and local elections. The regulations, entitled the European Assembly and Local Elections Regulations, 1979, were made under section 91 of the Electoral Act, 1963 which makes special provision for taking two or more polls together.

The regulations provided that a common ballot box would be provided in each polling station for the Assembly and county council or county borough council election. In stations where a third poll was to be taken (i.e., for the borough, urban district or town election) a separate ballot box would be provided for the ballot papers at that poll.

In accordance with the regulations, not later than 9 a.m. on Friday, 8th June, the ballot boxes containing the Assembly and local election ballot papers were to be opened in each county and county borough, the Assembly papers separated from the local election papers and the ballot paper accounts for each election verified. The Assembly ballot papers were then to be placed in sealed ballot boxes and transmitted to the appropriate counting centre in the four Assembly constituencies, and held there for the Assembly count which, under the provisions of European Community law, could not commence until voting was completed in all the Community member states, i.e. on Sunday evening, 10th June.

Following verification of the ballot paper accounts on Friday, 8th June, the counting of the local election votes would proceed in the ordinary way. The regulations made provision for dealing with ballot papers inadvertently put by an elector into the wrong ballot box so as to ensure that a ballot paper would not be rejected solely by reason of being placed in the wrong ballot box.

The conduct of the poll at each election, the separation of ballot papers and verification of ballot paper accounts for the Assembly and county or county borough council elections were under the supervision of the local returning officer for the Assembly elections (i.e. the county registrar or the city or county sheriff).

Under the regulations, postal voting at each election was confined to members of the Defence Forces and the Garda Síochána and the special postal voting arrangements for local elections did not apply.

The regulations also provided for the issue to each elector entitled to vote at the Assembly and local elections of a special polling card explaining that he would receive a separate ballot paper for each election and could vote 1, 2, 3, etc. for the candidates in order of his choice on each paper. This provision was in substitution for the power of a local authority under article 35 of the Local Elections Regulations to decide, by resolution, to issue polling cards.

Because of the suspension of postal services arising from a postal strike, the Minister for the Environment made an order on 10th May, 1979 entitled the European Assembly and Local Elections (Special Difficulty) Order, 1979, which empowered returning officers at both elections to issue, and voters to return, postal voting ballot papers by post, or in any other manner. It also enabled returning officers, instead of sending polling cards, to take such other steps as they considered appropriate for the purpose of informing electors of the polling day and the place at which they were entitled to vote.

Following representations from Dublin County Council, the Minister for the Environment caused a local enquiry to be held into the desirability of altering the membership of the council. The enquiry was held on 30th November, 1978. Having considered the report on the enquiry the Minister made an order increasing the membership of the council from 25 to 36. At the same time the number of local electoral areas in the county was increased from 6 to 9. The Minister also made an electoral areas order in relation to Dublin County Borough, increasing the number of electoral areas from 9 to 11. The number of members of the City Council was not changed.

The Minister also made orders dividing the boroughs of Drogheda, Galway and Sligo and the urban districts of Bray and Dundalk into electoral areas. Each of these had constituted a single local electoral area since 1974.

The following table sets out the percentage of the electorate represented by total votes cast at the 1979 local elections as well as comparison figures for previous local elections:—

	1967 %	1974 %	1979 %
County Borough Councils except Dublin	67	57	59
Dublin County Borough Council	52	40	48
County Councils	72	68	67
Borough and Urban District Councils	69	65	64
Town Commissioners	73	70	70
Total	67	62	64

Invalid votes at the elections represented 1.65% of the total votes cast.

Following the 1974 local elections, the Department published a report (Local Elections, 1974. Results and Statistics), giving information regarding the electorate, the valid poll, the number of seats and the quota, the number of candidates presented by each political party, the number and percentage of first preference votes received by each party and the names and addresses of the elected members. The present publication gives the detailed results of the 1979 elections, including transfers of votes, for each county electoral area and each county borough electoral area. Because of the number of electoral areas concerned it would not be practicable to publish similar details for boroughs, urban districts and towns. Where detailed information is required about the elections in such areas the enquiry should be directed to the local authority concerned.

The statistical tables relate to all local authorities. Table A shows for each local authority, in summary form, the number of seats, the number of electors on the 1979/80 register of local government electors, the total number of votes cast, the percentage of electors who voted, the number of invalid votes, invalid votes as a percentage of the total votes cast, and the valid poll. Table B shows for each local authority the number of candidates, the percentage of first preference votes and the number of seats for each political party. Table C contains an analysis of the invalid votes.

In accordance with the Local Elections Regulations, 1965, the names of the registered political parties to which candidates are affiliated may be shown on the ballot papers. Such party affiliations are also shown in this report. The following abbreviations are used:

C.P.I.	—Communist Party of Ireland
D.P.P.	—Donegal Progressive Party
F.F.	—Fianna Fáil
F.G.	—Fine Gael
Lab.	—The Labour Party
S.F.W.P.	—Sinn Fein the Workers' Party
S.L.P.	—Socialist Labour Party
S.P.I.	—Socialist Party of Ireland

Where a candidate was described as Non-Party on the ballot paper he is also so described here.

The information in this book is based on returns furnished by the local authorities.

Department of Environment,
October 1980.
